Hold up

you can do *what*
with CSS now?!

**But Ramón, I already
know what's going on in
CSS?!**

Also who are you

What's new in CSS and UI: Q/O 2023 Edition

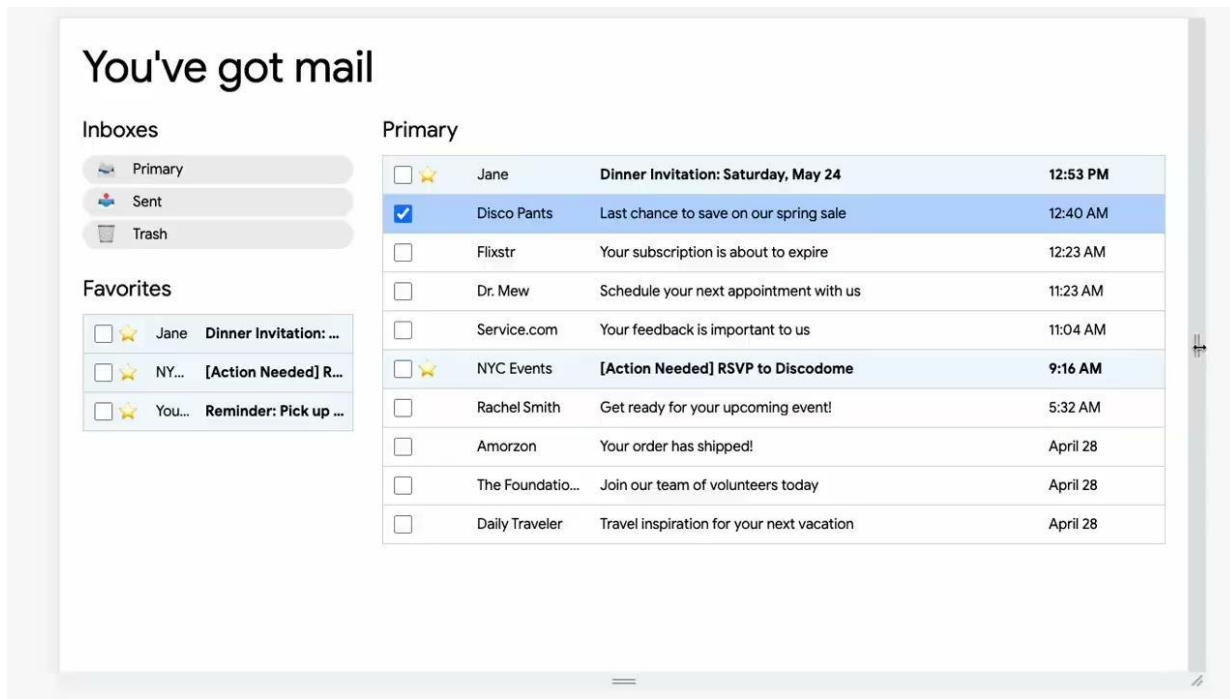

And y'all,
Some **unbelievable** stuff is coming to CSS.

**100% credit to the respective teams
showcasing these.**

He's lying to you, folks!

It's also because this talk came to his mind way too short notice and he didn't dedicate time to make his own demos.
